Abstract

In this article, I shall discuss how I spent last summer

Introduction

Note: no number for this section's title. The beginning is described in Section 1, summer proper in Section 2.

1 Summer begins

Summer begins in May?

1.1 May weather

It was raining *a lot*. This phenomenon is explained in [2, Section 4].

1.2 May activities

Because of what is described in Subsection 1.1, we stayed indoors and read the book [1]. (Use labels in bibitems! not simply numbers.)

2 Summer proper

Whatever.
